YOGESWARACHARY MODEPALLI

Data Science Professional | Financial Fraud Analyst | Machine Learning Engineer

Hyderabad, India | +91 9676106803 | myogeswarachary@gmail.com

Portfolio: ymodepalli.in

GitHub: https://github.com/Yogeswarachary

LinkedIn: https://www.linkedin.com/in/yogeswarachary-modepalli-4a91571b8/

PROFESSIONAL SUMMARY

Data Science professional with hands-on experience in fraud detection, predictive modeling, statistical analysis, and dashboard development. Built and deployed machine learning solutions using Python, Streamlit, and Scikit-learn, with strong exposure to feature engineering, hypothesis testing, and business problem solving. Skilled in data cleaning, EDA, fraud analytics, and machine learning, with strong communication and presentation skills. Seeking opportunities in Data Science, Data Analytics, Machine Learning, AI Engineering, Data Engineering, and Business Analytics.

TECHNICAL SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, EDA, Data Cleaning, Feature Engineering

Machine Learning: Scikit-learn, Random Forest, XGBoost, Logistic Regression, SMOTE, Model Validation

Visualization: Matplotlib, Seaborn, Power BI

Statistics: Hypothesis Testing, A/B Testing, Regression Analysis, Time Series Analysis

Deployment: Streamlit, Jupyter Notebook, VS Code

Concepts: Fraud Detection, Classification, Clustering, NLP, ETL, Business Analytics

PROJECTS

VisaLens – AI based Smart Visa Assistant | TypeSciript, Next.js, Groq-Compound, Vercel

GitHub: Visalens Repository

Live App: Visalens

- Developed AI-powered visa assistant using Groq for real-time document and fee retrieval via agentic web workflows.
- It scrapes data from official visa portals using Groq-compound to ensure accurate information.

Fraud Detection Machine Learning Pipeline | Python, Scikit-learn, Streamlit, Vercel

GitHub: Fraud Detection Machine Learning Pipeline

Live App: Fraud Detection App | Fraud Risk Score Mapping

- Built end-to-end fraud detection pipeline for real-time transaction risk analysis using machine learning.
- Performed data preprocessing, feature engineering, and handled class imbalance using SMOTE.
- Performed data preprocessing, feature engineering, and handled class imbalance using SMOTE.

- Deployed real-time prediction system using Streamlit and Next.js (TypeScript) on Vercel for fraud scoring.

Financial Fraud Research India 2024 | Independent Research

Research Paper: Financial Fraud India 2024

- Researched fraud patterns and mitigation strategies in the Indian banking sector.
- Analyzed trends and documented data-driven fraud prevention insights.

DHL Inventory Optimization Project | Python, Hypothesis Testing

GitHub: Inventory Optimization Analysis

Live App: Inventory Optimization App

- Cleaned inventory data and prepared it for statistical analysis.
- Applied hypothesis testing to identify efficiency bottlenecks in inventory operations.

PROFESSIONAL EXPERIENCE

Student Visa Process Executive | Gateway Visas & Immigration Consultancy | Hyderabad

Aug 2024 – Sep 2025

- Managed documentation and workflow tracking for student, work and tourist visa applications.
- Improved process efficiency by organizing records and reducing delays in application handling.

Process Analyst | LaGlobal Overseas Edu | Hyderabad

May 2023 – Jul 2024

- Analyzed visa-processing workflows, maintained structured tracking systems, and reduced processing time by up to 50%.
- Supported process monitoring, documentation review, and status updates.

Admissions Expert | Flywise Overseas Edu | Hyderabad

Jan 2023 – Apr 2023

- Handled student admission documentation and application status tracking.
- Maintained accurate records and supported communication with stakeholders.

Java Developer Intern | Pratian Technologies | Bengaluru

June 2022 – Sep 2022

- Assisted in developing and testing Java-based applications.
- Gained exposure to object-oriented programming and software development workflows.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Jawaharlal Nehru Technological University, Hyderabad

Jun 2017 – Nov 2020

CERTIFICATIONS

- Accelerator in Business Analytics and Data Science Program – Hero Vired
- HarvardX: Introduction to Data Science with Python – edX
- Generative AI for Data, Tech & Finance – Apr 2025
